To have these clock hours added to your certification file, log on to your profile on the CRCC website. Under **Certificants** click on the link to 'add pre-approved continuing education program' then click 'Add CE Pre-Approved.' It is best to submit this documentation as activities are completed or at least on an annual basis. This form is for pre-approval by CRCC only and will only be added to your certification file with them. If you hold certification from other organizations, you will need to submit verification of attendance/completion according to their requirements.
